UNASLI has been in existence since 2004. UNASLI’s vision is: “A society where professional interpretation services is a means to contribute to the development process”.

The recently concluded General Assembly had the following strategic objectives:

1. To develop a five year strategic plan for UNASLI
UNASLI’s work will focus mainly on three key areas: organisational development, capacity building and influence and advocacy. Capacity building of UNASLI will be achieved by establishing secretariat, structures, policies, and other working documents. This will enable the leadership and membership of the association to become effective and self-sustaining able to carry out their work. UNASLI will work with partners to influence policy makers and implementers and government programmes to include the right to provide access to interpretation services at all levels in society.

2. **To identify possible ways which UNASLI can support the implementation of the PWDs ACT 2006 and other relevant legal provisions**

The meeting looked at different legislations in order to identify sign language interpretation provisions with the aim to advocate for better services, terms of conditions and better pay. The Ministry of Gender, Labour and Social Development has completed the drafting of Regulations for the Persons with Disability Act 2006; the meeting also had an opportunity to identify gaps and respond to the sign language interpretation provisions.

UNASLI’s task in the coming five years will focus on identifying other relevant legislations and policies that have been adopted so as to develop strategies for the mainstreaming of interpretation services in Uganda. The legislative frame work targeted mainly is the Persons with Disability Act 2006, other legislations include:

- Disability inclusive provisions in other pieces of legislations
- Affirmative action on tertiary and higher institution of learning
- PWDs representation on other statutory bodies like district land board, district service commissions, tender boards etc
